PREFATORY NOTE

This List is principally composed of titles of books shelved in the Library, in the section devoted to banks and banking. There have, however, been inserted the more important treatises in other classifications which refer to the subject. Certain United States documents and Parliamentary papers which possess special value for the study of the subject have been included. Treatises on currency are not included.

General treatises on banking, its principles and mechanism, are Bagehot's "Lombard street: a description of the money market;" Bolles's "Practical banking;" Conant's "A history of modern banks of issue;" Courcelle-Seneuil's "Les opérations de banque;" Crump's "The English manual of banking, 2d ed.;" Dunbar's "Chapters on banking;" Easton's "The history and principles of banks and banking;" Fiske's "The modern bank; a description of its functions and methods, etc.;" Gilbert's "A practical treatise on banking;" Indianapolis monetary convention, "Report;" Macleod's "The elements of banking, 3d ed.;" Palgrave's "Notes on banking;" Patten's "The methods and machinery of practical banking;" Raguett's "A treatise on currency and banking;" Scharling's "Bankpolitik;" Scott's "Money and banking;" and White's "Money and banking illustrated by American history."

General histories of banking are Collins's "The history, law, and practice of banking;" Conant's "A history of modern banks of issue;" Gilbert's "The history, principles, and practice of banking;" Goddard's "A general history of the most prominent banks in Europe;" and "A history of banking in all the leading nations."

For the general history of *banks and banking in the United States* there are to be specially noted Dunbar's "Laws of the United States relating to currency, finance, and banking from 1789 to 1896;" Knox's "A history of banking in the United States;" Sumner's "A history of banking in the United States;" and White's "Money and banking illustrated by American history." Other works on the subject are: Baker's "Banks and banking in the United States;" Bolles's "The financial history of the United States;" Conant's "A history of modern banks of issue;" Dawes's "The banking system of the United States;" Eliason's "The rise of commercial banking institutions in the United States;" Elliot's "The funding system of the United States and of Great Britain;" Gilbert's "The history of banking in America;" and Gouge's "A short history of paper money and banking in the United States." For fundamental material on the *Bank of the United States* there is Clarke and Hall's "Legislative and docu-

mentary history of the Bank of the United States." See also titles under the heading "Bank of the United States;" Biddle's "Two letters addressed to the Hon. J. Quincy Adams; embracing a history of the re-charter of the Bank of the United States;" "A brief review of the origin, progress, and administration of the Bank of the United States;" Catterall's "The first six years of the second bank of the United States;" Chapter 13 in Conant's "A history of modern banks of issue;" Gilbert's "The history of banking in America;" Alexander Hamilton's "The report of the Secretary of the treasury on the subject of a national bank, etc.;" Knox's "A history of banking in the United States;" Documents under United States, Treasury department, in this List, and White's "Money and banking illustrated by American history." There are numerous discussions of the removal of the deposits by President Jackson noted throughout this List.

For *State banks* there are Baker's "Banks and banking in the United States;" Barnett's "State banking in the United States since the passage of the national bank act;" Barrett's "Modern banking methods and practical bank bookkeeping;" Blair's "A historical sketch of banking in North Carolina;" Bryan's "History of state banking in Maryland;" Cleaveland's "The bank system of the State of New York;" Conant's "A history of modern banks of issue," chapter 14; Felch's "Early banks and banking in Michigan;" Gibbons's "The banks of New York;" Hadden's "History of early banking in Wisconsin;" Hinchman's "Banks and banking in Michigan;" Knox's "A history of banking in the United States;" Merritt's "The early history of banking in Iowa;" Sumner's "A history of banking in the United States;" United States, Treasury department, "State banks and banking companies," forming House executive document no. 42, Twenty-fourth Congress, first session, and White's "Money and banking illustrated by American history." See also United States report of the Comptroller of the Currency for 1876 for a concise history of banking down to the Civil War.

Treatises on *local banks of the United States* are Cook's "The Philadelphia national bank;" Domett's "A history of the bank of New York, 1784-1884;" Lewis's "A history of the Bank of North America;" Morris's "The history of the First national bank of Chicago;" Stone's "A century of Boston banking," and Woodward's "One hundred years of the Hartford bank, now the Hartford National Bank, of Hartford, Conn."

The so-called *Suffolk bank system* is set forth in Whitney's "The Suffolk bank." See also a chapter in White's "Money and banking illustrated by American history," and incidental notices in Sumner's "A history of banking in the United States."

Special treatises on *American colonial banking* are Bronson's "A historical account of Connecticut currency, continental money, and the finances of the Revolution;" Davis's "Currency and banking in the

province of Massachusetts-bay;" Douglas's "The financial history of Massachusetts from the organization of the Massachusetts Bay colony to the American revolution;" Gouge's "A short history of paper money and banking in the United States, including an account of provincial and continental paper money;" Trumbull's "First essays at banking."

Canadian banking receives specific treatment in Breckenridge's "The Canadian banking system, 1817-1890;" Conant's "A history of modern banks of issue," chapter 16; Cornwell's "The currency and the banking law of the Dominion of Canada," and Walker's "Banking in Canada."

General histories of the *Bank of England* are: Francis's "History of the Bank of England;" Macleod's "A history of banking in Great Britain;" Turner's "Chronicles of the Bank of England;" and Warren's "The story of the Bank of England." See also Conant's "A history of modern banks of issue," chapters 4 and 5. Histories confined to a limited period are Fortune's "Concise and authentic history of the Bank of England," and Rogers's "The first nine years of the Bank of England." A general history in French is Andréadès's "Histoire de la Banque d'Angleterre." For special phases of the history of the Bank of England see titles under the heading "Bank of England," in this List; Gilbert's "The history, principles, and practice of banking;" Godfrey's "A short account of the Bank of England;" Reports of Parliamentary committees under the heading "Great Britain, Parliament;" in this List; Leckie's "Review of the proceedings of the committee of the House of Commons on banks of issue, 1840;" Loyd's "Remarks on the management of the circulation, and on the condition and conduct of the Bank of England;" Mushet's "An attempt to explain from facts the effect of the issues of the Bank of England;" Noël's "Les banques d'émission en Europe;" Palgrave's "Bank rate in England, France, Germany, 1844-1878;" Parnell's "A plain statement of the power of the Bank of England;" Philippovich von Philippsberg's "Die Bank von England im Dienste der Finanzverwaltung des Staates;" "Reasons for encouraging the Bank of England;" "Review of the past and present policy of the Bank of England;" Seyd's "The Bank of England note issue and its error;" "Some reflections on the Brief account of the intended Bank of England," and Wolowski's "La Banque d'Angleterre et les banques d'Écosse." For a list of authorities see Stephens's "A contribution to the bibliography of the Bank of England."

English local banks.—Grindon's "Manchester banks and bankers;" Phillips's "A history of banks, bankers, & banking in Northumberland, Durham, and North Yorkshire;" Price's "A handbook of London bankers," and Rae's "The country banker, etc."

A Description of the Office of credit; by the use of which, none can possibly sustain loss, but every man may certainly receive great gain and wealth. With a plain demonstration [!] how a man may trade for six times his stock, and never be trusted; and that (if generally received) there can afterwards no accident happen to cause a deadness or slowness of trade, except warrs, nor need men make any more bad debts. With divers other publick and private [!] conveniences and profits: as also objections hitherto made against it, largely and fully answered.
